Jaguar Motorsports

Texas A&M University-San Antonio

Put your brand alongside a student-led racing program through team content, trackside visibility, and San Antonio community events.

Give your brand a place in our story

Jaguar Motorsports offers businesses opportunities to build recognition with motorsports fans, students, and local supporters. Connect your products or services with the people, preparation, and competition behind a collegiate racing team.

Built around your business goals

Whether your priority is local awareness, product visibility, or content featuring your business, we can shape a proposal with specific placements, deliverables, timing, and pricing.

Explore the options: See our separate Sponsorship Packages document for tiers, pricing, and included benefits.

Where your brand can show up

Connect with students, local supporters, and motorsports fans through team activity and the wider collegiate racing community.

At the track

Race car branding, team apparel, and signage put your organization alongside the people and preparation behind the program.

In team content

Race recaps, behind-the-scenes updates, and sponsor features provide opportunities to tell your story alongside ours.

In the community

Campus activities and local events create opportunities for conversations, promotional materials, and partner involvement.

League and creator audiences are separate from team followers. Sponsor impressions are not guaranteed.
